Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Prosecution on the merits of this application is reopened on claims 4-5, 19, 21 and 28 which have considered unpatentable for the reasons indicated below:

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 11-15, 20, 22-27, 47-48 are rejected under 35 U.S.C. 102(e) as being anticipated by Bolognia et al (US Pat. 6,819,555).

Regarding claims 11-15, 20, 22-27 Bolognia et al disclose a chassis 24; a computer drive 20; and a bendable arcuate mount 178 disposed within the chassis 24 adjacent the computer drive 20 wherein the bendable arcuate mount 178 comprises a plurality of heat transfer structures 134 wherein the chassis 24 comprises a computer server wherein the chassis 24 comprises a desktop computer wherein the computer drive 20 comprises a hard disk drive wherein the bendable arcuate mount 178 comprises a hand-engageable fastening mechanism.

Art Unit: 2835

Regarding claims 20, 47 Bologna et al disclose a mount for a computer drive, comprising: means 76, 78 for laterally retaining the computer drive 20 in a chassis 24; means 178 for bendingly compressing to retain the computer drive 20 vertically in the chassis 24; and means 134 for transferring heat from the computer drive 20; means 162 for pivoting the means 178 for bendingly compressing between open and closed positions relative to the means 76, 78 for laterally retaining.

Note that structure as mentioned can perform the method claims 22-27.

Allowable Subject Matter

3. Claims 16-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the prior art fails to show that the top structure comprises a plurality of heat transfer structures or that the top structure comprises a pivot structure that is pivotally mountable to the base structure.

4. Claims 1-10, 29-46, 49-55 allowed.

The following is a statement of reasons for the indication of allowable subject matter: as mentioned above.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

McAlister (US Pat. 6,876,547) teaches hard drive carrier.
